Recent Appointments

- December 2020 – **Assistant Professor (Tenured)**
- Today
Location: Faculty of Science and Engineering as well as the M4I Division of Imaging Mass Spectrometry, Maastricht University
Activity: I am building a research program and group focusing on expanding and connecting ToF-SIMS imaging to other levels of information in order to help us understand disease and biology from atoms to anatomy. I received tenure on January 28, 2022.
- January 2020 – **Assistant Research Professor (NTT)**
- December 2020
Location: Materials Characterization Laboratory (MCL), Materials Research Institute (MRI), Pennsylvania State University
Activity: I established independent collaborations with PSU faculty as well as industrial partners and obtained internal and external funding to sustain this research.
- January 2019 – **Postdoctoral Scholar**
- December 2019
Location: Materials Characterization Laboratory (MCL), Materials Research Institute (MRI), Pennsylvania State University
Activity: I conducted biological ToF-SIMS research in the Materials Characterization Laboratory (MCL) of the Materials Research Institute (MRI) as well as the research group of Professor Nicholas Winograd within the Department of Chemistry.

- January 2017 - **Postdoctoral Researcher**
- December 2018 Location: Natural Product Chemistry Institute (ICSN), French National Center for Scientific Research (CNRS)
Supervisor: Dr. Alain Brunelle
Activity: I was part of Dr. Alain Brunelle's Mass Spectrometry Group at the Natural Product Chemistry Institute (ICSN) of the French National Center for Scientific Research (CNRS). I worked on a variety of different projects within the scope of the DEFIMAGE (Project ID: ANR-15-CE29-0007) and CHEWING (Labex Ceba Strategic Project 2017-2019) grants.
- November 2016 - **Research Assistant**
- December 2016 Location: School of Pharmacy, University of Nottingham
Supervisor: Dr. Mischa Zelzer
Activity: Led a two-month project to design and test a new sample holder for correlative cryo-SEM and cryo-ToF-SIMS imaging of frozen cells.

Education

- 2016 PhD, School of Pharmacy, University of Nottingham (UK)
Supervisors: Dr. Mischa Zelzer and Dr. Noah Russell
Thesis title: "Three-dimensional Time-of-Flight Secondary Ion Mass Spectrometry Imaging of Primary Neuronal Cell Cultures"
- 2013 MSc in Chemistry, University of Antwerp (BE)
Supervisor: Prof. Luc Van Vaeck
Thesis title: "Preliminary Research of Molecular Depth Profiling with ULAM-S-SIMS of Industrial Laminate Systems"
- 2011 BSc in Chemistry, University of Antwerp (BE)
Supervisors: Prof. Luc Van Vaeck and Prof. Koen Janssens
Thesis titles: "Optimization of the Imaging of coated Fibers with Time-of-flight (TOF) Static Secondary Ion Mass Spectrometry (S-SIMS)" and "Comparison of the Analysis Possibilities of Paint Samples using various FTIR Techniques"

Honors and Awards

- 2020 ACS Editors' Choice
- 2019 BMSS John Beynon Travel and Conference Fund
- 2019 Travel Grant for Early Career Scientists from the Analytical Division of the Royal Society of Chemistry
- 2019 Travel bursary from the Early Career Researchers Fund of the Institute of Physics
- 2018 Travel Grant for Early Career Scientists from the Analytical Division of the Royal Society of Chemistry
- 2016 Overseas Conference Travel Grant from the Analytical Chemistry Trust Fund

2013 MSc in Chemistry awarded cum laude

2011 BSc in Chemistry awarded cum laude

Selected Funding, Grants and Contracts

Ongoing

- 2023 – 2025 European Commission: MSCA Postdoctoral Fellowship (Dr. Caroline Bouvier)
Role: Primary Supervisor
Title: “Synergistic Combination of Immunolabeling and Molecular Imaging Technologies for Art Research (SCIMITAR)”
Grant agreement ID: 101108506
DOI: 10.3030/101108506
- 2023 – 2025 CZI: Advancing Imaging Through Collaborative Projects (PI: Dr. Ian Anthony)
Role: Co-PI
Title: “Fast Mass Spectrometry Imaging for Immunohistochemistry”
- 2022 – Present Atoms2Anatomy Fund (UFL/SWOL)
Role: Trustee
Scope: The Atoms2Anatomy Fund supports the development of Dr. Sebastiaan Van Nuffel’s research group at Maastricht University. The general aim of this group is the development and application of imaging mass spectrometry techniques in life sciences research and a specific goal is the development of a multi-scale approach to investigate biological models and clinical samples from atoms to anatomy.
- 2021 – Present PhD student (4y) provided by the Sectorplan Bèta en Techniek
Role: PI
Title: “The Development of Multiscale Multiomic Approaches using ToF-SIMS in the Context of Biomedical Research Applications”

Completed (within the last 3 years)

- 2020 – 2022 PSU Pathway to Partnerships (P3) Stage 2 Application (PI: Prof. Neil Christensen)
Role: Co-PI
Title: “Papillomavirus-induced tumor tissue imaging using two novel mass spectrometry methods: TOF-SIMS and MIBI-TOF”

3. "Understanding MALDI through 3D ToF-SIMS Imaging", 21st International Conference on Secondary Ion Mass Spectrometry (SIMS21), Jagiellonian University, Kraków, Poland, 10-15 September 2017.
2. "3D ToF-SIMS Imaging of Primary Cell Cultures", SIMS Europe 2016, Physical Institutes of the University of Münster, Münster, Germany, 18-20 September 2016.

1. "3D ToF-SIMS Imaging of Primary Neuronal Cultures", RSC Biomaterials Chemistry Meeting, University of Birmingham, Birmingham, United Kingdom, 7-8 January 2016.

Teaching Experience

Period 4, 2023 - Present	Coordinator, Advanced Image Processing and Artificial Intelligence (MIE1007), Faculty of Science and Engineering, Maastricht University
Period 3, 2023 - Present	Coordinator, Research and Engineering Project I (PRO4004), Faculty of Science and Engineering, Maastricht University
Period 3, 2022 - 2024	Planning Group Member, Pre-clinical Imaging (MBS1501), Faculty of Health, Medicine & Life Sciences, Maastricht University
Period 2, 2022 - Present	Coordinator, Imaging Engineering (CEN2005), Faculty of Science and Engineering, Maastricht University
Period 2, 2022 - Present	Guest Lecturer, Advances in Biomedical Sciences (SCI3050), Faculty of Health, Medicine & Life Sciences, Maastricht University
Period 1, 2021	Co-coordinator, Academic Skills and Project Management (SKI1101), Faculty of Science and Engineering, Maastricht University
Period 6, 2021	Tutor, Critical Appraisal of Biomedical Publication (BBS1006), Faculty of Health, Medicine & Life Sciences, Maastricht University
June 13, 2019	Guest Lecturer, Chemistry Research Experience Undergraduate (REU) Program, Pennsylvania State University Seminar titled: "3D Label-Free Chemical Imaging of Tissues and Single Cells using Time-of-Flight Secondary Ion Mass Spectrometry"
Autumn 2017	Lecturer, Unités d'Enseignements (UE): Méthodologies en Protéomique for the M2 Ingénierie et Chimie des Biomolécules (ICBM) organized by Dr. Virginie Redeker, Université Paris-Saclay Course on the fundamentals and instrumentation of mass spectrometry given to master's students in class sizes averaging 10 students.

Mentorship

BSc students	As a PhD student, I co-supervised undergraduate students during their bachelor thesis projects. I compiled reading lists for their literature review and helped them set up experimental plans, analyze data and writing their thesis.
MSc students	During my time as a postdoc with the CNRS, I co-supervised the master thesis project of a foreign exchange student. As an assistant professor at the UM, I organize the first project period of the master Imaging Engineering. I have also organized volunteer projects for UM students.
PhD students	As an assistant professor at the UM, I currently supervise one PhD student in my group.

Postdocs As an assistant professor at the UM, I currently supervise two postdoctoral researchers in my group and co-supervise another. I also co-supervised a postdoctoral researcher during 2021.

2024 Guest editor for the JASMS Special Issue on Advanced Data Analysis in SIMS

Committees and Boards

2024 - 2028 Secretary of the SIMS Europe Advisory Board

2020 - 2022 International scientific committee member of the SIMS-23 conference

2021 - today M4I Representative for the Platform Scientific Integrity (FHML/MUMC+)

2021 - today Board of Admissions (BoA) for the MSc Imaging Engineering (FSE)

2022 - today Trustee of the Atoms2Anatomy Fund (UFL/SWOL)

Scientific Memberships

2023 - today British Mass Spectrometry Society (BMSS)

2023 - today American Society for Mass Spectrometry (ASMS)

2021 - today Nederlandse Vereniging voor Massaspectrometrie (NVMS)

2015 - today Institute of Physics (MInstP)

2015 - today Royal Society of Chemistry (MRSC)
